## **ISAUSA, Inc. introduces affordable Book Scanning Solutions**

*Book Scanning Hardware, Software and Services for everyone*

**Newbury Park, CA --- 6/1/2018 ---** At the ALA Annual Conference and Exhibition in New Orleans this month (booth #1216) ISAUSA, Inc. will showcase Book Scanning Solutions targeted to the low cost segment of the Industry.

*“Cost and complexities of bound book scanning projects have been traditionally conflated with historical preservation and high definition digital capture demands. Our goal is to provide individuals, students, collectors and low budget organizations with affordable options. The recent addition of the CZUR product line of book scanners, combined with our vast arsenal of proprietary software technology, expertise and methodologies made our goal possible”,* said Manuel Bulwa, President at ISAUSA.

ISAUSA, Inc. (dba Integrated Scanning of America) digitized nearly two billion images from books, drawings, newspapers, paper documents, magazines, microfilm and microfiche for hundreds of organizations in the private and public sectors since 1993.
